Lindy's AircraftCaddy 4K

Battery powered aircraft tug for one person to safely and easily maneuver aircraft in/out of tight spaces in hangars or in staging on the ramp up to 4,000 lbs.

Aircraft Caddy

Nose Wheel Cradle

Spring Ramp

Moves airplanes up to 4,000 lbs with or without wheel pants

Aircraft tug comes with easy-on wheel cradle or winch that slides effortlessly under front tire of aircraft.

Transfers weight from nose wheel to drive tires of tug for better traction over humps, inclines, and slippery conditions.
The cradle has a 5th wheel style turning that allows aircraft tug to turn full 180 degrees under aircraft wheel.
